BINGO Evolution

BINGO was good - we just made it better

Innovative folding mechanism & ASS Adaptive Suspension System

HOGGI[®]
Partnering together to mobilise kids

BINGO Evolution

BINGO Evolution - Facelifting 2014

The popular **BINGO Evolution** is available in new and attractive designs:

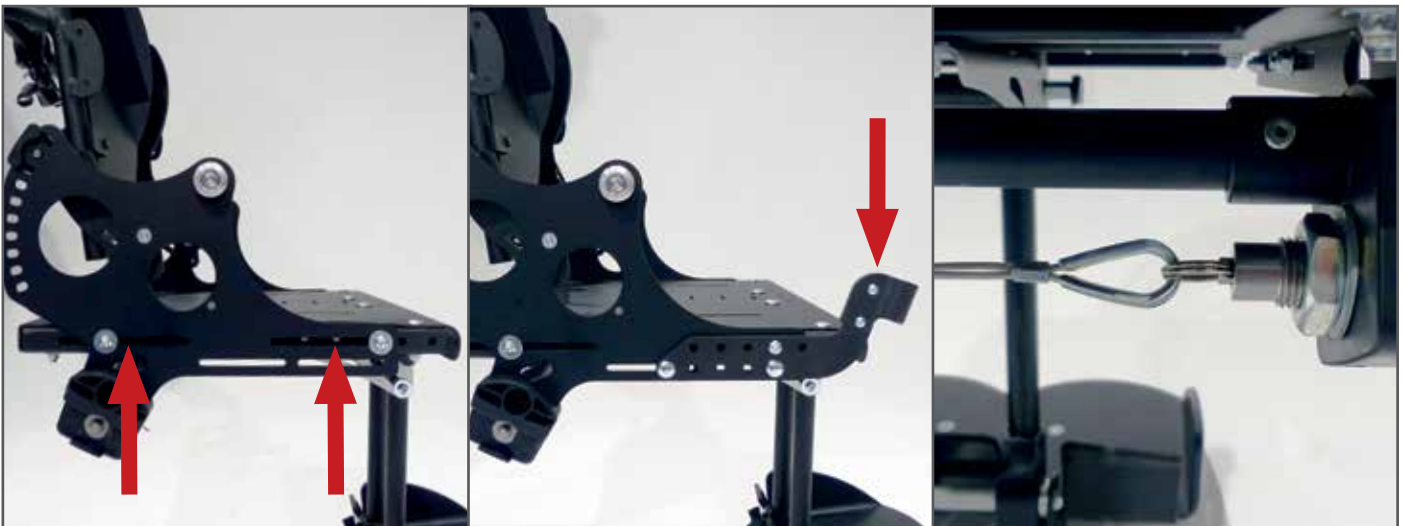

- **New frame colour**
Black dull matt
- **New upholstery colours**
Sand/Iron grey, Turquoise/Iron grey and Pink/Iron grey

BINGO Evolution - Technical Update 2014

Technical further developments:

- **Adjustment of the seat depth**
The adjustment of the seat depth is much easier and stepless now.
- **Retainer for accessories**
Resulting from the new seat depth adjustment we have updated the retainer for accessories as well.
- **Tilt mechanism**
The new engineering of the tilt mechanism guarantees a comfortable and long-run tilting.

BINGO Evolution

BINGO Evolution - innovative features

A Rehab pushchair is an important part of the care of disabled children.
In this sector **HOGGI** is setting standards with innovative solutions since 2005.
But we aren't content with the achievement yet:
The **BINGO Evolution** is the result our objective target of a permanent further development:
BINGO was good - we just made it better!

• **ASS - Adaptive Suspension System**

Optionally the **BINGO Evolution** can be supplied with a fourfold adjustable frame suspension system which can be easily adjusted without tools anytime. The innovative suspension system absorbs bumps from the ground, allowing the frame to be flexible in all directions, even diagonally which is especially effective off road or on rough terrain.

The mode of operation allows a power-saving bending on the rear wheels, e.g. to get over kerbstones.

For an optimal adaption to the load capacity until maximal 50 kg, there are two different spring sets available:

- spring set for a load capacity up to 25 kg
- spring set for a load capacity over 25 kg

• **IUS - Individual Upholstery System**

Removable foam cushions in the seat-, back-, head areas and lateral supports allow an easy customisation of the seating position.

• **45° Tilt**

The special construction of the tilt mechanism allows a 45° tilt of the seat unit in and in a reverse driving position without compromising the overall stability.

• **Tilt & backrest recline**

The operating elements of the tilt & backrest recline are positioned centrally and allow an easy and secure handling.

• **Compact folding size**

Compared to the preceding model the **BINGO Evolution** is even shorter now.

That is eminently important to store it in a car boot!

The innovative folding mechanism can be released easily on the push bar.

In addition, the large wheels provide a comfortable ride and are easy to detach by quick release.
